

Coleridge Medical Centre

GP Leaflet

A message from our Partners

Chris, Kate, Juliet and I are now just four partners here at the Coleridge Medical Centre. In addition to the enormous clinical challenges we have experienced throughout the last twelve months, we have also been able to restructure our medical team. All of our patients will remain registered for primary care medical services with one of us four partners, however happily we now have ten other GPs who form our extended and highly capable medical staffing.

This leaflet is intended to introduce you both to a number of GPs we have had working with us for a few years, but also to five new GPs who have joined us in the last year as employees of the practice. We are very much hoping many of you will want to get to know them just as you have always done with changes of partners in the past.

Ottery has always been very fortunate to be able to recruit medics, even at times when General Practice has not been the most attractive career option, however we are now very delighted to welcome our new team and commend their considerable knowledge and expertise of modern medical care to you .

As four partners, whom many of you have got to know well over the years, we understand and will endeavour to be able to offer you appointments with ourselves within our capability. We do hope however that you will understand when we ask to you to forge new "preferred" patient/Dr relationships with all of our colleagues whom the partnership and the town are very fortunate to have too.

A full list of our GPs, and the days they work in the practice, can be found in the timetable below.

For more information about all of our GPs, please visit our website at www.coleridgemedicalcentre.co.uk
